# Your Dollar at Work in 2024

## How your dollar was earned

## How your dollar was used

Because South Plains Electric Cooperative operates at cost, any excess revenues, called margins, are returned to members in the form of capital credits, when the Cooperative's finances permit.

SPEC notifies you of how and when you'll receive your capital credits retirement.

5

SPEC tracks how much electricity you buy and how much money you pay for it throughout the year.

1

South Plains Electric  
has retired over  
**\$55 million**  
to members over  
the years.

At the end of the year, SPEC completes financial matters and determines whether there are excess revenues, called margins.

2

SPEC allocates the margins to members as capital credits, based upon their use of electricity during the year.

3

When SPEC's financial condition permits, the board of directors decides to retire, or pay, the capital credits.

4

## Frequently Asked Questions About Capital Credits

Retiring capital credits is a unique business practice that allows cooperatives to give back margins. That process is just one part of the co-op difference, but oftentimes, capital credits are misunderstood. To better educate our members about capital credits, we have listed some frequently asked questions and answers.

**Q: What are capital credits?**

**A:** Capital credits are one of the many benefits of co-op membership. As a cost-of-service energy provider, South Plains Electric doesn't earn profits. Instead, co-ops use the term margins, which is revenue remaining at the end of the year after all bills are paid. Capital credits reflect each member's equity in, and contribution of capital to, the Cooperative.

**Q: What's the difference between allocation and retirement?**

**A:** An allocation is your share of the margins. We set this money aside to use as operating capital for improvements and maintenance; it also helps the Co-op meet equity ratios with lenders. A retirement is the amount you receive in a check or as a credit on your bill. It is a percentage of your allocations accumulated over the years.

**Q: What happens to the capital credits of a member who dies?**

**A:** It remains in place for the member's heirs. A representative of the estate must keep contact information current with the Co-op.

**Q: Why does the Cooperative need to accumulate equity?**

**A:** Your equity in the Co-op reduces the need for us to raise rates or borrow as much money to meet expenses. Every business must have equity to continue to survive.

**Q: What happens to my capital credits if I move?**

**A:** Your capital credits remain on our books until they are retired. That's why it's important to let us know of any address changes.

**Q: Where does the money come from?**

**A:** Co-ops set rates to generate enough money to pay operating costs, make payments on any loans and provide an emergency reserve. At the end of each year, we subtract operating expenses from the operating revenue collected during the year. The balance is called an operating margin.

**Q: Are capital credits retired every year?**

**A:** Each year, your board of directors decides whether to retire capital credits, based on the Co-op's financial health. SPEC's ability to retire capital credits reflects the Cooperative's strength and financial stability.

YEAR	ASSIGNED	REFUNDED	BALANCE
1943-1987	\$24,482,670	\$24,482,670	\$ 0

# OPERATION ROUND-UP

## *Neighbors helping Neighbors*

Operation Round Up has disbursed more than \$2 million to local organizations and individuals since its inception in 1993. More than \$240,000 was disbursed in 2024 alone.

### What is Operation Round Up?

This innovative program is a community outreach project that helps local organizations and individuals who need a hand up, not a hand out.

The money in the fund comes from members of South Plains Electric Cooperative who round up their monthly bill to the nearest dollar. When enrolled, the billing program automatically rounds up your monthly bill and deposits the difference into the Operation Round Up account. The average annual contribution is only \$6 per meter (and it's tax deductible)!

Ten members, your neighbors, sit on the Operation Round Up Board. They review applications and approve grants. They are also the eyes and ears in your community for potential projects.

Your contribution can:

- provide teacher mini-grants;
- buy food for families in need;
- help with medical emergencies;
- help rebuild a family's life after a fire;
- award scholarships;
- award community grants;
- make a life tragedy less traumatic.

Operation Round Up is about neighbors helping neighbors.
